Re: Letter of No Objection to The Sanctuary Project and Request for Alternative to Wall Buffer

Dear Village Council Members:

I, the undersigned, am an abutting neighbor to the east of the proposed mixed-use project known as The Sanctuary, to be located at 205 NE 87th Street in El Portal. My property is located at 245 NE 87th ST EL PORTAL, FL 33138 This letter confirms to the Village Council that I have no objection to the proposed project.

I wish to express my support and preference that the Council allow for the installation of a wood fence buffer between The Sanctuary and my property in lieu of the installation of a masonry wall or other similarly imposing structure. An alternative buffer, such as a well-designed wood fence, will provide a superior aesthetic experience while also providing for noise absorption.

Thank you for your consideration.

Sincerely,

Re: The Sanctuary

Dear Village Council Members:

I, the undersigned, am an abutting neighbor immediately to the east of the proposed mixed-use project known as The Sanctuary, to be located at 205 NE 87th Street in El Portal. My property is located at 260 NE 88th Street.

I do not want to have a masonry wall or other similarly imposing structure abutting my property from the current fence line in the tot lot north to 88th Street. I feel it would create a hazard trying to back out of my driveway. I fully support having a well-designed landscape screen that will provide a superior aesthetic experience while also providing for natural noise absorption.

Sincerely

Joan Hector
