## **NEW SOLID WASTE RECEPTACLES BEING DELIVERED THIS WEEK**

October 29, 2020

Dear Village of El Portal Residents:

This week the Village of El Portal's new solid waste contractor, Coastal Waste and Recycling, Inc., delivered new lime green 96-gallon waste receptacles to replace the dark green Waste Management 96-gallon waste receptacles we have been using over the years. The old receptacles belong to Waste Management, hence the need to replace them with this new service provider. Our solid waste dates remain the same, and we will continue to have quarterly bulk pick up as scheduled for December 2020, and a 2021 Bulk Pick Up schedule is available on the Village website. Please mark your 2021 calendar or refer to the Village of El Portal website, Public Works Department for dates.

We ask for your patience as we make the new equipment transition with our service provider. For those residents who have more than one receptacle, Coastal Waste and Recycling will be cross checking information on the tax roll to provide your additional receptacles in the coming days. Please email us at the Village of El Portal for any additional or new carts when needed or if you have not received the number of receptacles you are due. For those customers wishing additional carts, please contact Coastal Waste at [elportal@coastalwasteinc.com](mailto:elportal@coastalwasteinc.com) or Village of El Portal at [building@villageofelportal.org](mailto:building@villageofelportal.org) to make the request and payment. Any broken receptacles must be reported to and replaced by Coastal Waste free of charge to the customer.

Please contact the Village of El Portal if you have any questions or concerns. We are here to help.

Warm regards,

  
Christia E. Alou, Esq.  
Village Manager
